Dear Mr. Green,

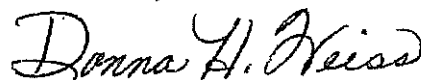

It is my understanding, on 29/5/07 maintenance of way Workers were kicked, dragged, harassed and violated while attempting and exercising their RIGHT to engage in a peaceful strike.

To learn of such fine Canadian citizens being abused and humiliated in this manner is more than just mere disappointment; it's repulsive, loathsome and abhorrent. Naive as I may have been about Canadian Pacific Railways, I had usually held your company and industry in highest regard. I thought your standards and values were of excellence in nature. This makes your unlawful behavior even more distressful, painful and disturbing.

It is my sincere hope you and your company will take responsibility for your actions and these differences, now escalated to severe conflict, will be resolved expeditiously and these hard working people compensated for what they have been forced to endure.

Thank you.

Sincerely,

Donna H. Weiss
